

<b>Sprint #6</b>	Re-organization + main character enhancement
<b>Date start</b>	25/10/09
<b>Date end</b>	15/11/09

S#	Story	Task title	Task description
	Main character	Animations	- Fix animations transitions - Fix weapon pointing at target - Fix crouched animations when wounded - Add kick animation when enemy is too close - Add pain animation - Use the 3DRT girl trooper in place of robomaniac soldier for its easier animation format (added during the sprint)
	Main character	Camera management	- Implement camera management ala dead space
	Main character	Model specification	Create a first draft of specification for the main character for contracting a freelance modeler.
	Mission	Tweak the actual mission	Add various small modification for enhancing the current mission: more monsters, another mine shaft, modify the terrain ...etc.
	Technical-story	Update user manual	- Update screenshots with actual version - Update existing chapter - Add a chapter about global map
	Technical-story	Update the development process	- Rework the feature list and the product backlog - Define the 1 <sup>st</sup> release like a sprint - Cleanup and simplify the spreadsheet

Remaining hours	30	25	23	23	23			
-----------------	----	----	----	----	----	--	--	--

Cumulative hours spent	0	5	9	11	13			
------------------------	---	---	---	----	----	--	--	--

Each session takes place during spare time, on an evening for 1 to 4 hours or during week-end for up to an entire day.

This sprint is a miss due to the lack of time and some troubles related to 3D model format, only 13 hours of the 30 planned were performed !!!
